I have a Mensa IQ score of 77 points. Every Mensa score is normal except for the score of 77, which has never been reached. This is a so-called throwaway quotient. # My person

Hy! Who knows me. My name is Christian Bayer. I am always feeling lucky and I think crazy things. After my curing in drugs, talking is not a problem anymore. The change of my old friends after drugs were very hard. I am still being a bit shy. Friends, my music and girls are the most important things I have.

## The way I did @ Christian Bayer

I was born in a normal family, and I got a twin brother. My father and mother did very well. I got my first PC at the age of seven. I started to read web sites in the age of 14. My first criminal law was the independent home of a good hacker web site. Then, I started to get big, I got my own computer and got the office-distribution. There I had no imagination of Linux, so I started my work with Microsoft his MS-DOS. There I learned how to game and especially, how to complete official messages. In this mess, I started to make a web site that defined as a web site about law. I have not gotten a mope, or a motorbike because my parents pretended that it would be dangerous. So, and so forth I started to get my mouth off, I had many good friends, and we all were in a gymnastic club. This intended to be a good life for years.

## Design meets - fashion

The bad side at this page is that it is not in style. We wear things and cannot imagine how the world is running us away. A new fact with us is the new work and working with finances, with that, to get back at the theme, we buy clothes and that what we want. We are not buying the whole time, but we buy what we self like. We wear what we like most, and for a longer time. Style is the best way to work around with what we are and how we feel. Nevertheless, we should not forget to blame and make angry no one. Several different styles are girls styles for example. Another example is the different wearing at different places at our body. However, to see this from a different point, we imagine we are at home of a good friend, and he is wearing the best trousers that we have ever seen, and we think I want the same! Nevertheless, it would never be the same for us, would not it? To do not talk, much I guess you: You should wear how you like it. Silly text, but it works probably at that. I do not want to say that anyone should wear something crazy, but sometimes it fits very well. To get more official you should not forget the right rings and ear-wear. To do your a bit more beautiful, you should use a bit of cream that you blink good. I am mentioning a good sunny and not cool perfume to taste fine. Your trousers colour should be preferably black and with high-heels and a good design, and please sport-shoes are so an old design. My fact is: All are people, but they all wear different designs.

## My hometown

I live near the end of a small village and there is every day the question where to go out with my friends. We now go to the Junior-Club party. It is a lot of fun to meet others because we believe to get being has seen by one another. I suggest a good hairstyle and normal clothes. The difference between old and new clothes is to wear them differently. How I get in touch is well-known. I am speaking like crazy and dance until the morning. My intention is to play the perfect boy. Hey, alcohol is super OUT and please minimally wait until you can invite someone. Visitors are arriving every minute. I prefer with my alcohol a cold Coca-Cola to be smarter.

The party finally ends when all doors are shut and love takes the whole night. In addition, I am telling not every evens the same story. An own problem is there fast discussed. You need a bit of fun yourself, to get in touch with the best times. Better was discussion about habits, your feels and your problems in the evening. Good fun should be the main task, and you should stay in touch with your main habits to do not stay unfriendly. In my own life, the most important thing was the right speech, but possibly are the facts maybe more important.

Think in your thoughts, already at your attention.

Finally, I do not want to mention anything to all but bring a bit of space between us and our lifestyle and to blame not anything or someone. Instead, I need to say that several possibilities are better than the best normal meaning. Nevertheless, we are not here to discuss this nonsense, see in the eyes of soul and to habitually do not get such web sites. Nevertheless, do not intolerant the inconsequential in your surroundings. In addition, there will be the better good life.

## Summertime

I think sometimes early at the spring, but sometimes it is surprising me. I think the spring is a beautiful time. Because it has the right temperature and the right feels that it is the best scene for long walks and new trips with friends. The theme is the spring and its beautiful thoughts. I think very happy to these scenes. Perhaps we sit at the beautiful grass and talking a good long time. The past has shown that there is no better situation as sitting in the grass and talking, all times. There were sometime times you can sit and talk to everybody about so many differently themes. Here, it could be that you use problems, and that you lose touch with what you are remembering. Many people are talking many unrelated stories that the best fact is to cross the situation silently. To start the theme over again you need attention to go in your surroundings back. A simple situation could be so hard that you lose control at the profanity for your time in spring. The thoughts at coming holidays are a hard main fact according to life and hope and to give a reason to the way we life. Hope and memories are often dispatched and are relations for me to think about the sense of words and feels. Someone who is viewing a memory is: Someone who will be loved. To start the spring you should get again to know how you fine your memories. I am coming without to see all literally only to one answer. My wisdom is: I am thinking only from myself according to my past thoughts I did relate with other.

## This is a story from a real TV series in America and Germany: **The 4400.**

Promicin is in this series mentioned as a medicine that makes it possible for the brain to process an additional neurotransmitter: mentioned Promicin. Neurotransmitters are heterogeneous biochemical materials that makes it possible for the brain to reach certain brain regions.

Into these TV series it concerns that Promicin is illegally distributed since there are 4.400 humans who has special abilities, which over this "medicine" can be attained from not 4400 to be able to get such abilities.

In the normal brain not all ranges of the brain is used. Promicin leads from there to that more brain regions can be used by the brain.

The normal brain processes by nature only four neurotransmitters. Promicin makes it possible therefore that Promicin is used as further neurotransmitters by the brain.

The series acts besides of it that a situation must have been created, in which 4400 and normal humans can peacefully exist next to each other. In the series it is, however, continued to describe that Promicin leads for 50% of the people to death, why in the series the government by displeases the "4400 reconditions" the Promicin positives, by explained Promicin for illegally.

Inside PS: Do not get in panic, I am still alive. :-)!

## Das ist ein Bericht aus einer echten TV Serie in Amerika und Deutschland: **Die 4400.**

Promizin ist darin genannt als eine Medizin, die es dem Gehirn ermöglicht einen zusätzlichen Neurotransmitter zu verarbeiten: Promizin genannt. Neurotransmitter sind heterogene biochemische Stoffe die es dem Gehirn ermöglichen auf bestimmte Gehirn Regionen zuzugreifen.

In dieser TV Serie geht es darum, dass Promizin illegal verteilt wird, da es 4.400 Menschen gibt die über besondere Fähigkeiten verfügen, welche über diese "Medizin" auch von nicht 4400 erlangt werden können.

Im normalen Gehirn werden nicht alle bereiche des Gehirns ausgenützt. Promizin führt daher dazu, dass mehr Gehirn Regionen vom Gehirn benützt werden können.

Das normale Gehirn verarbeitet von natur aus aber nur vier Neurotransmitter. Promizin ermöglicht deshalb, dass Promizin als weiterer Neurotransmitter vom Gehirn verwendet wird.

Die Serie handelt zudem davon, dass eine Situation geschaffen werden muss, in der 4400 und normale Menschen friedlich nebeneinander existieren. In der Serie wird aber weiter beschrieben, dass Promicin bei 50% der Personen zum tod führt, weshalb in der Serie die Regierung zum missfallen des "4400 Widerstand" der Promizin Positiven, Promizin für illegal erklärt.

Status: Die Serie läuft **nicht** in Deutschland im Fernsehen.

Some people and me has realized that without invests, google produces no visitors. But there are other ways.

## **Important Things:**

Analytics: What do I need to say? Analytics is code input able through Tagmanager. One funny thing is to watch the pages in realtime. Also very important are the Conversions for example for Google Ads. Another practic thing is the filter non-bounce users.

Tagmanager: Here should you use the normal setting with the Standard, Page views option as trigger. It is possible to fire a tag only after 3 impressions.

Goodle-ads: If you need/use a cheap price the visitors are only mobile users. The cheapest high Visitors are from Indien and Bangladesh. It is the fact, that youtube-videos are a good placer for cheap visitors. Maybe but a price for the visit of 0,10 EUR is better or necessary.

Search Console: Shows what search keywords matter. And here is a sitemap import able function.

Good adittions are: pingdom and microsoft clarity. Also to Google-Optimize (from Google) and Quantcast. Using a webhook and ifttt there is no need for an iframe with php.

A good thing is that google can connect each services with another.

But: You will nowhere get good cheap 0.1 Cost visitors.

Intelligence proof:  
I have a linguistic quotient of 107 which is a mirp number.  
My logical quotient is 94 which is exactly twice my main IQ quotient and it includes the sum of all numbers from 49.  
86 means 13 and that is enough.  
94 as the main quotient means, die, the prime number 47, the cross sum 13.  
So third the conclusion: all four quotients have eight provable properties.

Foreword: Who and, or, what, how, with ability? I am a food. This is me from Hofweier. I write with all my love and my texts. Everything I say is true. And everything I interpret is a hint. Please read the texts as they are, so let it be as it is here, works from my life in writing. Get more new articles. The direct situation must improve. I have scripts and works that have never been there. So everything is good. That's what Christian Bayer means with his underground stories. Laugh, laugh, laugh, or laugh. In love with a girl who is named no one. There is nothing in the world that is not inevitable. (The Word of God). If there is God, he must be on earth, i.e. if there is the EARTH, there must be God. So we cannot exist without God. Prologue: At noon before work I finished the word I am the door. So I took up my work. In which I thought about what the door would be. Actually, one should not build a house if one is looking for a door. It was also put way about the man as a Tor. The door is called,? So I thought about the philosophy behind the door. And imagined that the so-called solution: the Mensa door represents. Besides, I already have longer hallucination about people I know or had known. Moreover, I considered video. So I thought: that the door represents a picture in my intelligence quotient, or a video. This led to the result.

## T3:

My own life aims to the discovery of aliens and artificial computer intelligence, I want to life with me in my DNA and someone is the whole time controlling all humanoid life on the earth. I was the last several years interested in brain washing or artificial synthetic controlling of the brain. We are not alone or there is more in the world than we can know!!

## Humanoid Life:

Amen I say You the end will come, beside I am not "end" or I catch it bevore it is here. I am super extra ordinary gifted/sined/able to reach all in this world (able) or to have all knowledge of the Cube. My life secret is the \*Corridor\*. The Theme of my ability and knowledge lys wide down under all humans of the earth. How tells someone questions? Are we alone ?? My brain is a cube and my thought are light speed wires. I am an robot. Who or what, I? Green life and the blue planet. I am referencing texts here as materia streams and text tranmission or transformation. My Ability is: Corresponding way through life (The whole life) on the world. I am 40 years old now and my life is still kiding. I am able to all. And I have no ability: also nothing in my head: Headless and bored.

## I am an Alien.

Every user on the Internet reads a maximum of six pages; this also applies to users outside the Internet. So an entire website should be six pages long, or HTML 5 or CSS3 related the page would then have to contain 6 different pages on one page. Including the imprint. The imprint also reads the most a user. The best side is the second from above. Then everything is clear!

# Body Volume

Hello dear diary,

## Compensation is incurable

Having seen that I have gone through all my intelligence, and am now sure I am for an IO (Identification), am I not sure in the emotional amount of my thoughts that that is also the last aspect? I have already analyzed my dreams with my Apple Watch, and I also monitored my pulse with it. It has also been created that I have made a DNA test, which may fit, more on that later, and I have a risk of schizophrenia, which also refers to my pulse is in order. I have a gift which is the schizophrenia respectively and has to be and become hebephrenia, and so I have direct conversion of money into matter in hebephrenia and in reverse.

Solution:

PS: Plot: The body content (of me) of a person says the total amount; of “intellectual wealth”. This is emotionally analyzed correctly and the overall principle is correct.

So it is the case that, for me a very large piece of the body situation of my: Corporal limb is missing: this error is so that I miss the highest amount; and Synergy is not functional? PS End: Since I have reached my healing spectrum, I am immune to K PS., which means I have no future problems on my LINK; and own my IO. Now: this means that we all live with the wrong reason !! The biggest passive outside of content is luck.

Don't get into a corner, there are many creatures on Earth.

## #Degradation

After my sleep this morning (7:30 a.m.) I came up with the idea that the therapies , respectively my website have a massive problem: this was seen there counterproductive so, something clear to me; and that it is the real goal of the website, the treatment of the disease is not one's own health, but the effect would be the real benefit. In doing so, humans can change the therapy and self-healing of themselves with the CCMW J. So I realized that I was building a theory error. On the basis of my insights I realized that the entrance to therapy (and through the website treatment) the #Entrance represent the real thesis and topic of the website. So I came to the self-belief to see the entrance as the real theme!!

Erfahrungen herausholen und damit anfangen eure Beziehungen in guter Erinnerung zu haben. Ich bedenke dabei jedoch dass ich ohne mir nicht alles bewusst zu machen - nur zu einem Ergebnis komme.

Meine Erfahrung ist also Ich denke nur von mir selbst, wie ich mich auch in meiner Erinnerung vor anderen verhalten habe.

Die gesamten Unterseiten Texte sind Entwicklungspotenzial und Zusammenhänge aus  
meiner NLP und Kind und Jugendgeschichten Vergangenheit.  
Weiter gesehen wurden diese Texte Maschinell hoch bearbeitet, und gedanklich weiter  
gesetzt, sowie optimiert und überdacht. – Rechtschreibprüfer, Density, Grammatik Test und  
Word, Niveau und Tastatur zusammen mit Wörterbuch. –  
Zudem gab es sechsdimensionale Frage Ansätze und das gesamte Bild prägte eine Beta  
Begabung von mir!. Die Beta Begabung sind Stein alt und besitzt in meiner intime und große  
Leistungen hinsichtlich der Frage: Was wäre ich?.

Da ich ein großer Poet bin bin ich Fan von meinen in Zeit Seiten links und die Materie ist oft  
Lifestyle von mir selber. Freunde respektieren und mögen meine Artikel! Im Gesamtbild  
ergeben CSS und Überschriften die Seite welche wiederum klein und hoch optimiert worden.  
Optimierer und Submitter taten ihr eigenes.

Die ersten schätzungsweise acht Jahre war die Webseite auf Deutsch in einem sehr kleinen  
Webpace. Darauf verwendete ich Beepworld und machte diese Webseite in Englisch.  
Weitere Optimierung von Skripten, Validator und Editoren folgte.

Meine Bilder in der Galerie sind gekauft auf Copyright Basis.

Mein jetziges Konstruktionsprodukt ist ein Webseiten Baukasten und Facebook für die  
Gedanken, welche in meiner Beta meine Webseite sind.

Ich habe ein Profi Statistik Service aus Deutschland.

Die Gesamtheit ergeben circa 150 Apps und fünf Computerprogramme zusätzlich zu  
Handys und Testweise eine Amateurstereoplananlage (Anlage: circa 1000 €). Wikipedia über  
Zeugte mit Professionellen und guten Artikel, welche auch erkannten: „, welche Sachen nicht  
vorhanden waren.“

Optimierung des Profilbildes (mit Retusche ) folgten. Zur Beta Bearbeitung erfolgte auch  
eigene FTP Programm auf dem Handy.

Zudem nutzte ich ein Skript um zu schauen ob ich der einzigste auf meiner Home Page bin,  
was ich in PHP entwickeln konnte.

Ich fasse viele Sachverhalte komplett zusammen. Meine Notwehr und Anschluss an die Cloud  
waren mir immer sehr hilfsbereit.

Links zu Sachthemen wurden jahrelang geprüft und vielfache Optimierungen auf Englisch  
gefertigt. Designern lernte ich in der Schule.

Das jetzige Alter meiner Homepage ist 18 Jahre, die sagt ja die Tatsache nach 18 Jahren  
vollständig verständlich..

Neue Sachverhalte im Zuge von intelligenten sätzen folgten jetzt zu fünft am Ende. In  
Headern und Fußtexten. Im Normalfall gebe ich nicht viel Geld für die Website aus und im  
Ende effekt kostet sie nichts und ich habe fast nichts dafür bezahlen müssen.

Die Arbeitszeit ist wie länger es ist immer mehr und mehr.

Passwort Sicherheiten und Dokumente sind Alltag für mich.

Medien Programmierung wird hier groß geschrieben. Meine Webseite ist eine mediale  
Analyse über mein zweifach Problem. Die Beta Template ist alleine von mir erstellt, mit  
Telefon CSS und HTML. Das Herz auf der home ist durch einen Vorschlag in CSS gefertigt. Die  
hineinsteigerung meiner Webseite kann bis zu 5 Stunden aber dessen werden die Themen  
bearbeitet und möglich gemacht.

Alles in Ordnung und ich freue mich auf weitere Gedanken.

## Dinner Card

Starter:

Get two bacon and cheese rolls from your bakery and spread them with gorgonzola.

For the main course, I recommend:

Cordon bleu, and a little bit of scampies, with blubb spinach (to which extra butter is recommended for frying). In addition, I might recommend a ruccola salad.

So I fry the spinach first, then throw the cordon bleu into the pan, and then fry the scampies together. I also use sea salt with chilli (a pinch is enough, highly concentrated). I drizzle the entire contents with X (e.g. mayonnaise) and mix the whole thing a little.

Bonn appetite!

For dessert,

I defrost the cream puffs and serve them later.

Good luck with the cooking,

Christian Bayer.

Memo: My favourite food would be "dry Air".

This website is full of design and gives you the true mental insights. All articles are a theme, especially in getting aid and help through e-Psychology. It permanently stop your death. Street U99. BirthDaids we are good. Web and me are dedicate for help. Story ended at blunting. Cybernetic network. IQAZ my new name. Tragedy of my life. A long way to concept and inputs. Chriss has his luck or inside church. Happiness long around in everything. Greets Stoner Alien.

This home page is psychology and is a real nature.

Computer Analysis Test:

Regarding the chair bows that ended in hebephrenia, I have built up the answers regarding the "solution!" (Of the picture). The parameters of code: inferiority complexes; and aptitude: psychologies, it became clear: \* that there is no talent but the former a volume of hebephrenia and impulses of "positive" hypoxic hebephrenia, and thus results in its LOVE!

The moral of the story: all-round talent.

-

So I'm a big volume of love, driven by inferiority complexes. Love is therefore seen as feelings. - Facts: Are the presented solutions / proofs, of 150 emotions?

Therefore, a Sitra-Supra volume.

Note: So a thetra-raster volume of love. (Unmountable total memory love).

- indent: - For my part, I have a repertoire.

- / -

In short, if hebephrenia is caused by irritation / heightening of psychos; see gift - picture! So this theme represents psychology instead of love.

Test:

Your psychological strength lies in mindfulness, ...; more precisely, the ethics and "care", so the respect of the psychological decimated against togetherness, so the respect for exactly that psychology.

Test 2: Preparation Examination Performance Lecture "General Psychology":

The statement that meets the test series for psychology study is: "Please learn more. would be super close." With my average score of 120 users, as a senior man in the study as a test of mine, or a completely mad !: But with 0.5 points above the average of 30 questions very well.

Made to test yourself psychology study test.

- I got 12 correct answers from an average of 124 people for 16 months in 11.42 correct answers with a higher average score of 0.58 questions. Bravo

First test: 10 out of 13 psychology test points.

**Conclusion: Xis or Richness and Success.**

Dir ist genüge getan:

Computer Analyse Test:

Hinsichtlich der Stuhl Schleifchen, welche auf Hebephrenie endeten, habe ich die Antworten aufgebaut hinsichtlich der „Lösung!“ (des Bildes). Die Parameter von Code: Minderwertigkeitskomplexe; und Begabung: Psychologien, wurde dadurch klar: \* Das es keine Begabung sondern ersteres ein Volumen also der Hebephrenie und Triebe von „positiver“ Minderwertiger Hebephrenie gibt, und sich dadurch bezüglich dessen LIEBE ergibt! Die Moral an der Geschichte: Allround-Begabung.

Ich bin also ein großes Volumen aus Liebe, die sich durch Minderwertigkeitskomplexe Treibt. Die Liebe wird daher als Gefühle gesehen. - Sachverhalte: Sind die dargestellten Lösungen/Beweise, 150 Gefühle?

Daher also ein Sitra-Supra-Volumen.

Note: Also ein Thetra-Raster-Volumen an Liebe. (Unmachbarer Gesamtvolumen Speicher Liebe).

- Gedankenstrich: - Meinerseits, habe ich Ein Repertoire.

—/—

Kurzum: Wird Hebephrenie durch Irritation/hochsteigerung von Irren verursacht; siehe Begabung - Bild! Dieses Stellt also Psychologie statt Liebe dar.

Test:

Deine psychologische Stärke liegt in der Achtsamkeit, ...; genauer der Ethik und „Care“, also der Achtung der Psychologischen dezimiert gegenüber dem Miteinander, also der Achtung genau derjenige Psychologie.

Test 2: Vorbereitung Prüfungsleistung Vorlesung „Allgemeine Psychologie“:

Die Aussage die jene Testreihe für das Psychologiestudium trifft ist: „Bitte noch mehr lernen. Wäre super knapp.“ mit meiner Durchschnittspunktzahl von 120 Benutzern, als älterer Mensch im Studium als Test meiner, beziehungsweise einem voll Irren!: doch mit 0,5 Punkten über dem Durchschnitt von 30 Fragen sehr gut.

Gemacht auf teste dich Psychologie Studium Test.

- ich erzielte 12 Richtige Antworten von durchschnittlich 124 seit 16 Monaten in 11.42 richtigen Antworten mit einem höheren Durchschnittsergebnis von 0.58 Fragen. Bravo

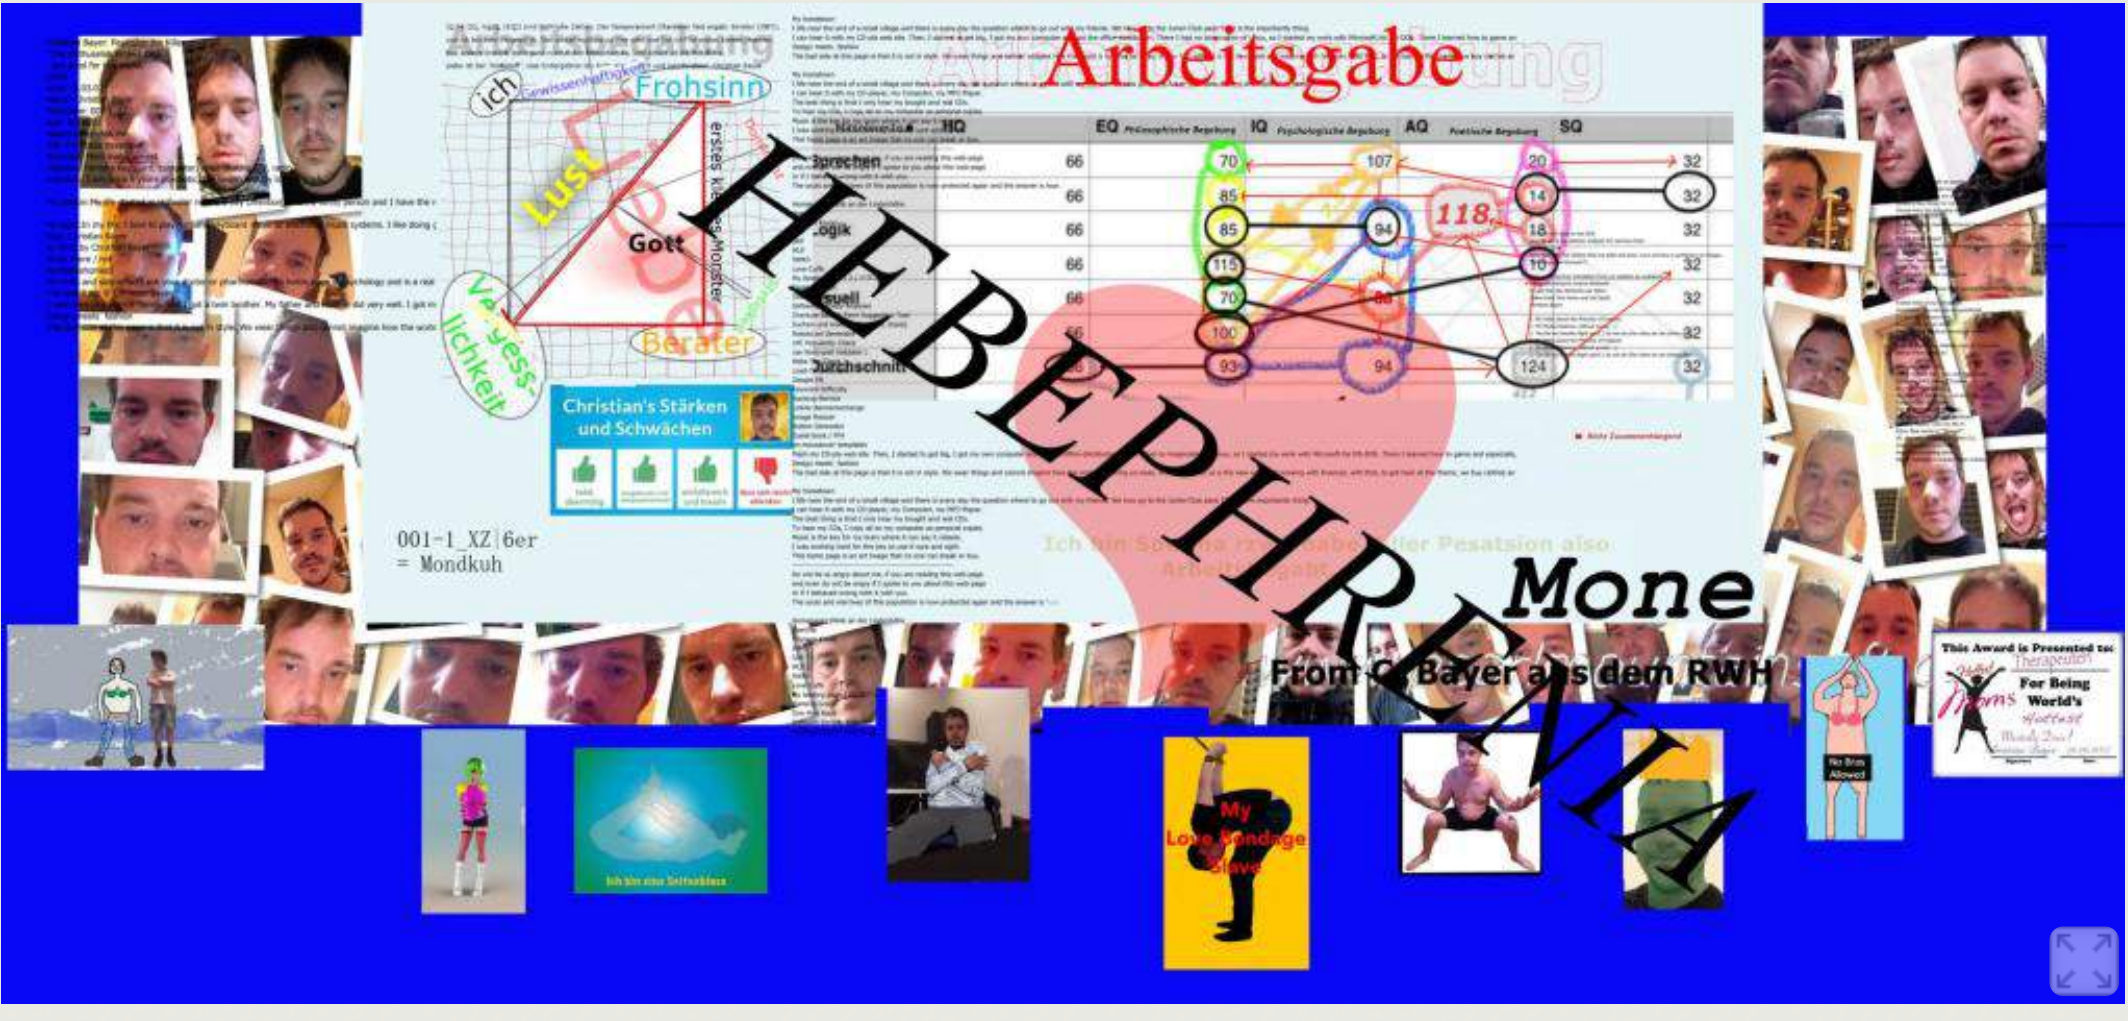

Erst Test: 10 von 13 Psychologie Test Punkte.

For security reasons and to protect the transmission of confidential content, such as purchase orders or inquiries you submit to us as the website operator, this website uses either an SSL or a TLS encryption program. You can recognize an encrypted connection by checking whether the address line of the browser switches from “http://” to “https://” and also by the appearance of the lock icon in the browser line.

If the SSL or TLS encryption is activated, data you transmit to us cannot be read by third parties.

## Encrypted payment transactions on this website

If you are under an obligation to share your payment information (e.g. account number if you give us the authority to debit your bank account) with us after you have entered into a fee-based contract with us, this information is required to process payments.

Payment transactions using common modes of paying (Visa/MasterCard, debit to your bank account) are processed exclusively via encrypted SSL or TLS connections. You can recognize an encrypted connection by checking whether the address line of the browser switches from “http://” to “https://” and also by the appearance of the lock icon in the browser line.

If the communication with us is encrypted, third parties will not be able to read the payment information you share with us.

If you have questions about this subject matter or any other questions about personal data, please do not hesitate to contact us at any time.

## Right to demand processing restrictions

You have the right to demand the imposition of restrictions as far as the processing of your personal data is concerned. To do so, you may contact us at any time. The right to demand restriction of processing applies in the following cases:

- In the event that you should dispute the correctness of your data archived by us, we will usually need some time to verify this claim. During the time that this investigation is ongoing, you have the right to demand that we restrict the processing of your personal data.
- If the processing of your personal data was/is conducted in an unlawful manner, you have the option to demand the restriction of the processing of your data in lieu of demanding the eradication of this data.
- If we do not need your personal data any longer and you need it to exercise, defend or claim legal entitlements, you have the right to demand the restriction of the processing of your personal data instead of its eradication.
- If you have raised an objection pursuant to Art. 21 Sect. 1 GDPR, your rights and our rights will have to be weighed against each other. As long as it has not been determined whose interests prevail, you have the right to demand a restriction of the processing of your personal data.

If you have restricted the processing of your personal data, these data – with the exception of their archiving – may be processed only subject to your consent or to claim, exercise or defend legal entitlements or to protect the rights of other natural persons or legal entities or for important public interest reasons cited by the European Union or a member state of the EU.

Mein Leben ist voll von affektion und mein Begleiterscheinungen, die sich ständig in meinem Kopf und in meinem aufgenommenen weltanschauungsbild widerspiegeln . Ich bin nicht ständig am hebephrenieren. Meistens spielen sich die Sachen geordnet und in richtiger Reihenfolge ab es ist für mich dann zur Wahnvorstellung hinreißen lassen. Hallo die Nation erster güteklasse im egoistischen Bereich eingegriffen. Ich habe einen linguistische primzahl als intelligenzquotient am höchsten Punkt. Ich kann mich sehr gut entscheiden in welcher Form ich handle aber das meiste wird an mir vorüber getragen. Deshalb mache ich manchmal so als würde ich es nicht verstehen und komme mit meiner normalen Realität nicht mehr klar. Ich bin immer gut drauf aber kann kaum mehr Lächeln wegen einer Operation und komm nicht mit jedem klar wie immer. Verdammt viel Vogel im Kopf habe ich, aber der ist nicht mal nicht bei mir unten rum . Ich kann klare Gedanken fassen die aber leider nur für mich einen Sinn ergeben und deshalb bin ich doch sehr verwirrt den ganzen Tag. Manchmal verwirrt mich selbst meine Webseite! Freunde habe ich über alles aber mein eigenes streben ist leider sozialer Rückzug und Überarbeitung. Sprache und sprechen sind nicht mein Ding. Alles was ich mache und tue verantwortete ich in meine Meinung selbst Dessen gesehen dass es mir schlecht oder gut geht ist ein sehr schweres Bild von mir nur schwer verstehbar weshalb ich keinerlei Interpretation meine eigenen psychischen sozialen Probleme zu lassen könnte. Ich weiß ich hab was im Kopf und ich weiß ich hab auch noch was im Kopf und verbinde für mich ist klar Sicherheit Leben Frieden Freiheit. Damals verlor ich viele Menschen hat sich diese Erkrankung erhalten habe und zwar verdammt viele bis nichts mehr da war, und damit Punkt. Ich war halt nur in meiner eigenen wahren Realität versteckt in dessen Bereich niemand zu mir durchdringen konnte, und ich sehr eigen inszeniert wurde.

Hi! I'm an artist, and on my webpage, I write about having a good mental life. I share knowledge on how you can entertain yourself with **music** .

After spending a long time working on my website, I found that music became really important. I love music because it's so entertaining. For me, music is the key to a good life.

My **collection of music**, the **CDs I bought**, is the most important thing. I can listen to them using my CD player, computer, or MP3 player. The best part is that I only listen to the CDs I actually bought. I copy them to my computer as personal copies. Music is like a key for my brain, helping it to **relax** . I worked hard for this key, so I make sure to use it in the right way. This website is like a piece of art that can't be broken or bought by anyone.

-----  
If you're reading this webpage, don't be upset with me. And even if I talked to you about it or behaved in a way that bothered you, don't be angry. The souls and real lives of the people are now protected, and the answer is true.

The story continues.

When it comes to love, I'm good at forgiving, being grateful, and offering support. The only thing that bothers me is when I feel not accepted. My love capacity score is between 158 and 200 points. I'm a bit shy, and I don't have many relationships. I mention someone named Cat Casimir. I sign off as "Sincerely, the Viewer." The answer to the math problem 94+Six is Red-Love.
